SUMMARY

• BBA Computer Applications graduate with hands on experience in Linux system administration, AWS cloud services, and DevOps automation. Proficient in shell scripting, CI CD fundamentals, and cloud infrastructure provisioning using AWS. Seeking an entry level DevOps or Cloud Engineer role to contribute to automation, deployment, and cloud operations.

TECHNICAL SKILLS

Languages: Bash/Shell Scripting, Python
DevOps Tools: Docker, Jenkins, Git, GitHub, AWS CLI
Cloud Platforms: AWS (EC2, S3, IAM, Lambda, VPC)
Operating Systems: Linux (RHCSA concepts), Windows
Networking: CCNA Fundamentals – TCP/IP, Routing, Switching, VLANs, Subnetting
Automation & CI/CD: Shell Scripting, Basic Pipeline Setup, Deployment Automation
Soft Skills: Problem Solving, Self-learning, Presentation, Adaptability, Troubleshooting
Areas of Interest: Cloud Infrastructure, DevOps Automation, Linux System Administration, Networking, Containerization

EXPERIENCE

• DevOps Intern   *Sep 2025 - Present*

SevenMentor Pvt Ltd   Pune, Maharashtra

- Gained hands-on experience in Linux system administration, including user and group management, file permissions, and service monitoring
- Worked with AWS cloud services, including EC2, S3, and IAM, to understand infrastructure provisioning and management
- Learned and practiced DevOps automation concepts using shell scripts and basic CI/CD workflows
- Studied CCNA networking fundamentals and applied knowledge to manage cloud networking and connectivity in lab exercises
- Followed structured documentation and troubleshooting practices to ensure reproducible results and process compliance

PERSONAL PROJECTS

• AWS Cloud Practice Labs

Practical implementation of AWS core services to build cloud infrastructure fundamentals.

- Provisioned EC2 instances and configured IAM roles to control secure access
- Implemented S3 storage solutions with correct permissions and basic lifecycle management
- Explored VPC networking components to understand secure cloud architecture

• AWS Cloud Automation Labs

Implemented DevOps workflows on AWS to automate cloud infrastructure and deployment tasks.

- Provisioned and managed cloud resources (EC2, S3, IAM) in automated lab scenarios, applying infrastructure best practices
- Automated deployments using shell scripts and AWS CLI, simulating CI/CD pipelines for continuous integration
- Gained hands-on exposure to cloud security, performance, and resource monitoring concepts

EDUCATION

• Bachelor of Business Administration in Computer Applications)   *2022-25*

Savitribai Phule Pune University   CGPA: 8.5

CERTIFICATES

• DevOps Certification | SevenMentor Pvt. Ltd.   *2025*

• AWS Cloud Certification | SevenMentor Pvt. Ltd.   *2025*

• RHCSA Certification | SevenMentor Pvt. Ltd.   *2025*

• CCNA Certification | SevenMentor Pvt. Ltd.   *2025*
